

Archangel Gabriel Consultancy Service Choices

The following Service Choices that Archangel Gabriel Consultancy (Archangel) offers can be styled to meet your particular needs. Providing the whole community, based on the number of hours required monthly, relevant to the service you choose.

Basic Service

This service may be used by Diocese/Congregations who have most aspects in place to support their member's health and ageing needs. This is a reactive on call service that addresses medical issues as they arise and includes general services to support individuals to manage their own healthcare.

Depending on the need of the Diocese/Congregations a written agreement may not be required and the casual rate will apply. Alternatively an agreement where a monthly retainer fee may be agreed upon can be arranged and the lesser hourly rate will be applicable.

Included in the Basic Service are the following aspects:

- Transport to medical and specialist appointments with personal attendance during appointments if required.
- General recommendations related to access to services, improving independence with the use of aids and equipment, and basic health information provision as required.
- Seasonal health information sheets.

Intermediate Service

The Intermediate Service is suited to Diocese/Congregations who are facing increasingly more complex health issues and are requiring guidance and support to manage this effectively. It is a general all round service that can provide positive direction to individuals as well as covering the basic aspects of health and ageing collaboratively with Leadership Teams.

Included in the Intermediate Service are the following aspects:

- General case management including health and medication monitoring, referrals to community services and other health providers.
- Support for individuals with medical issues including transport and tracking of appointments, reminders, accompanying to appointments, written summaries of appointment outcomes to the individual and leadership team as required.
- Liaison with medical practitioners, specialists and other service providers to provide basic advocacy and effective transfer of information related to health care provision.

Your Health is Our Concern

- Monitoring of general issues within the community and support to leadership teams to develop effective management strategies around health and ageing.
- Providing health information be it via; seminars, newsletters or seasonal information sheets.

Premium Service

This is a complete and proactive service that focuses on preventative health care as well as comprehensive support with health and wellbeing issues in all aspects of ageing. In addition to the following benefits, it also includes all aspects of the Basic and Intermediate Services. The Premium Service is a valuable option for Diocese/Congregations that would benefit from a comprehensive service with full monitoring of individuals in all aspects of health care.

Included in this Premium Service are the following aspects:

- A complete case management service including working with individuals and medical professionals to develop a comprehensive care plan for each person. This includes addressing individual issues, collaborative goal setting and regular reviews.
- Regular monitoring of ongoing health concerns, including maintaining records and tracking tools to ensure accurate data collection in health management. This monitoring can be established according to individual medical issues and can also include regular tracking of blood pressure, pulse rate and oxygen levels.
- Clinical nursing support and full access to the comprehensive knowledge base and experience of a Registered Nurse. This also includes regular consultation with medical professionals to ensure effective information provision, through medical intervention and up to date best practices for the client.
- A multi-disciplinary team working together to monitor, liaise and advocate with the GP, Specialists, Pharmacist and all Allied Health Services. This enables comprehensive medication management, and ensures clear continuity of care in all aspects of ongoing health issues.
- Flexible intervention as requested by Community Leaders to address, support and provide assistance with all health, lifestyle and transitional issues that arise ongoing and in an emergency situation.
- Health and Educational seminars and events tailored to address the current needs in the community.

Please Note:

Many aspects of health and illness can arise unexpectedly and events of a critical nature cannot always be planned for, as in an emergency. However, ongoing rapport building and understanding the individuals and communities within Diocesan and Congregational culture is the best preparation for such a situation. In this way the

Healthcare Consultant can become an effective advocate for the client and deliver the best course of action to resolve and provide effective support in all events.

All our services are flexible and may change being reviewed as health situations increase or develop. This will always be done in collaboration with the Leadership Team and involve a suitable time period of transition according to situations.
